

College of Education Workstation Security Waiver

The Purdue University College of Education has established a baseline security standard for all networked computer workstations. This waiver indicates that a computer workstation has been waived from meeting the baseline security standard by a dean, department head, or unit director. By completing this form, the undersigned agrees to the following terms and assumes responsibility for the security of the workstation. Please check all boxes and sign below.

<input type="checkbox"/>	I understand and agree that this computer will not adhere to the College of Education baseline security standard and I assume responsibility for the security of the workstation.
<input type="checkbox"/>	I understand and agree that this computer will not adhere to the recommendations of the Education Office of Information Technology for securely operating a networked computer workstation.
<input type="checkbox"/>	I understand and agree that the computer listed here does not contain or have access to restricted data as defined by Purdue University policy.
<input type="checkbox"/>	I have read and understand Purdue policies regarding IT Resource Acceptable Use and Sensitive and Restricted Data.
